Does Monaco sell a voice evacuation panel?

The MAAP-X voice evacuation panel is currently their flagship. Monaco currently sells the M-2, MAAP (+), MAAP-2 and MAAP-X control panels, but will send resources or parts (paid) upon request for any older panel. Their products have a very long support period, even after discontinuation.

What kind of detector does Monaco use?

Their products have a very long support period, even after discontinuation. Monaco today mainly uses System Sensor Select(TM) series detectors (rebranded as "Type I" for CLIP models and "Type II" for AP models) and Honeywell modules that run Monaco's AP (Advanced Protocol). They rebrand many different pull stations, including the BG-12.

Does Monaco still use the M2 interface?

The M-2 interface is still being used on some MAAP (+) addressable panels. It is still being sold by Monaco as of this writing. The MAAP addressable panels were introduced sometime in the 1990s or 2000s. The MAAP-X voice evacuation panel is currently their flagship.
